Wymagania STP

Attachment no 2
to the General Terms and Conditions for opening and maintaining LORO Accounts and processing LORO Customers' Payment Orders
STP Requirements

Payments & Cash Management Correspondent Banking

Straight Through Processing Requirements in ING Bank Śląski S.A

1. General Information

The costs of international payment transactions can be considerably reduced by following the prevailing standard rules. The term "Straight Through Processing" (STP) refers to the highly automated and standardized processing of payment transactions. ING Bank Śląski S.A. offers its customers the opportunity of executing their future payment transactions in the most cost efficient way.

2. Requirements of the regulations on information accompanying transfers of funds

Payment orders in the form of MT103/PACS008 and MT202COV/PACS009COV messages must include information referring to the parties to the payment transaction, as per Regulation (EU) 2023/1113 of the European Parliament and of the Council of 31 May 2023 on information accompanying transfers of funds and certain crypto-assets and amending Directive (EU) 2015/849. The full scope of information covers:

1) the last name/business name of the sender and the beneficiary
2) the Unique Identifiers of the sender and of the beneficiary
3) in case of the sender – the address, including the name of country or official personal document number and identification number; where the sender is a natural person, the address/the number may be replaced by the date and place of birth or the number of an official identity document.
4) LEI of the sender or, in its absence, any available equivalent official identifier.

In case of a lack of information indicated above, ING Bank shall refuse to process the payment order or return the processed payment transaction to the entity which ordered ING Bank to process the payment order, charging the account with the amount with which it had previously been credited.

3. Transaction quality and price

Any payment order that does not comply with STP rules will be subject to additional commission.

4. Account number format in MT messages only:

You must use slash „/" before account number (in the Party Identifier line). Above applies to optional account number line in the fields 53 through 59. IBAN format is mandatory in Poland.

5. BIC (SWIFT address)

Only providing BIC (Bank Identifier Code) for each bank in the payment order would allow transaction to be processed automatically (STP).

Enclosed please find:

- STP requirements for MT 103 and PACS008
- STP requirements for MT 202 and PACS009
- STP requirements for MT 202COV and PACS009 COV accompanying to MT103/PACS008
